

Spring Fling Package

Directions: The following table includes 9 different assignments with varying point values that you can choose from to complete. **The total Travel Package project is worth a maximum of 70 points.** How you choose to accomplish or work towards that 70 points is up to you. Meaning, you can do any combination of the assignments with the exception that each type of assignment can only be done once. There is no limit to how many of the assignments you choose to do. For example, if you choose to do every single assignment listed, and you manage to earn full credit for each assignment, the maximum number of points you can earn for the entire Travel Package project will be 70 points. *Please check off which assignments you have selected to do, and then staple this handout on top of all of your work.*

<p>Choose a painting in one of the museums you visit. Sit in front of the painting and write a “stream of consciousness” piece describing the painting and what you are thinking/experiencing.
